6.3.6 Assess emergency response actions	<ul style="list-style-type: none"> • Collating and assessing information on emergency status to declare the end of the emergency, or abandonment of the facility • Future stages of emergencies and advanced mitigation strategies.

Learning Outcomes

To successfully complete this unit delegates must be able to:

- Accurately capturing and retaining information coming in from an incident.
- Sorting and prioritising of information.
- Analysing and interpreting information for trends and impacts.
- Being aware of the information channels and the information coming in.
- Ability to analyse and prioritise information in support of the incident management process.
- Ability to communicate effectively with a wide range of personnel.

Pre-requisite & Periodicity

There are no specific pre-requisites for the Understanding Environmental Conditions During Incident Response training. However, the delegate must be able to demonstrate suitable exposure within his/her sphere of influence therefore a good understanding of the resources used by the plant, the nature and source of pollutants and the waste materials produced by the plant. It also requires the operator to understand the impact of using resources, and the effect pollutants and waste can have on the local environment.

The Managing Security & Policing During Emergency Response training unit is part of the Bachelor's Degree Level 6 program in Incident Response, Management & Recovery.

Aims & Objectives.

This subject describes the skills, knowledge and behaviours required to manage, direct and conduct strategic governance and social responsibilities planning for an organisation. This includes developing objectives and strategies, implementing initiatives and analysing, interpreting, and monitoring trends and processes. It focuses on making provision for inclusivity to ensure that Response, Management, and Recovery of Incidents are compliant & ensure an effective and organized outcome to all involved and concerned at all levels.

Duration, Timings & Numbers

The optimum "contact time" for this training is seen as 26 hours with classroom-based instruction as the primary delivery style.

The total contact time per day will not exceed 8 hours. The total training day will not exceed 10 hours.

The maximum number of delegates per unit is six (6).

The Course Format

Course format is classroom lecture with Q&A and interactive discussion.
