

Recovery & Reinstatement of Processes & Controls (IRMR 6.5) (WGG Offshore Academy Bachelor's Degree Level 6 in IRMR)

Target Group

The 6.5 Recovery & Reinstatement of Processes & Controls training unit is directed towards individuals who are, or may be required to manage, direct, and conduct strategic governance and social responsibilities planning in the context of incident response for an organisation.

Course Elements & Competency

The following unit elements will be delivered:

Element 6.5.1 Manage shutdown sequence.

Element 6.5.2 Conduct start-up process.

Element 6.5.3 Document shutdown and start-up process.

Course Outline

6.5.1 Manage shutdown sequence	<ul style="list-style-type: none">• Safety systems• Shutdown causes and nature• Rectifying faults or shutdown causes
6.5.2 Conduct start-up process	<ul style="list-style-type: none">• Start-up procedures and permissions
6.5.3 Document shutdown and start-up process	<ul style="list-style-type: none">• procedures and permissions

Learning Outcomes

To successfully complete this unit delegates must be able to:

- Work safely at all times, complying with health and safety and other relevant regulations and guidelines.
- Separate equipment, components, and materials for reuse from other waste items and materials.
- Store reusable materials and equipment in an appropriate location.
- Disposal of waste materials in line with organisational and environmentally safe procedures.
- Restore work areas to a safe condition in accordance with agreed requirements and schedules.
- Deal promptly and effectively with problems within your control and report those that cannot be solved.

Pre-requisite & Periodicity

There are no specific pre-requisites for the Understanding Environmental Conditions During Incident Response training. However, the delegate must be able to demonstrate suitable exposure within his/her sphere of influence therefore a good understanding of the resources used by the plant, the nature and source of pollutants and the waste materials produced by the

plant. It also requires the operator to understand the impact of using resources, and the effect pollutants and waste can have on the local environment.

The Recovery & Reinstatement of Processes & Controls training unit is part of the Bachelor's Degree Level 6 program in Incident Response, Management & Recovery.

Aims & Objectives.

This subject describes the skills, knowledge and behaviours required to manage, direct and conduct strategic governance and social responsibilities planning for an organisation. This includes developing objectives and strategies, implementing initiatives and analysing, interpreting, and monitoring trends and processes. It focuses on making provision for inclusivity to ensure that Response, Management, and Recovery of Incidents are compliant & ensure an effective and organized outcome to all involved and concerned at all levels.

Duration, Timings & Numbers

The optimum "contact time" for this training is seen as 26 hours with classroom-based instruction as the primary delivery style.

The total contact time per day will not exceed 8 hours. The total training day will not exceed 10 hours.

The maximum number of delegates per unit is six (6).

The Course Format

Course format is classroom lecture with Q&A and interactive discussion.
